

FREE CARE FOR VETERANS

Naprapathic Pain-Relief & Function Restoration Study

Now enrolling 15 Veterans • Private study in partnership with the VA (not a VA program) • Cost: \$0 for participants

Reduce pain • Restore function • Rely less on meds & surgeries

LOCATIONS & SCHEDULE

Starting October 1, 2025

- Comprehensive First Exam in Ruidoso, NM: includes imaging, 20 Point exam, and report generation for each participant
- (Albuquerque/Santa Fe): 10 Week Treatment Block will occur at the Naprapathic Medicine of New Mexico / Southwest University of Naprapathic Medicine clinics
- Final Follow Up Exam will occur in Ruidoso, NM, to establish progress, re testing, results review, and next steps.

WHO QUALIFIES

Veterans with PTSD and any neuromuscular & musculoskeletal conditions. Motivated to attend 1 visits per week for 12 weeks, able to go to both the initial and follow-up final exam in Ruidoso, NM, Transportation to be determined, and open to non drug, non surgical care.

COMMON NEUROMUSCULAR CONDITIONS THAT WILL BE ADDRESSED

- Low back or neck pain; stable sciatica/radiculopathy
- Headache (tension/cervicogenic), migraine
- Post concussion, dizziness, vestibular/balance issues
- Knee osteoarthritis; hip/gluteal pain
- Shoulder impingement; rotator cuff tendinopathy (non full thickness)
- Elbow/wrist/hand pain (tennis/golfer's elbow; carpal tunnel)
- Plantar fasciitis; Achilles tendinopathy
- Myofascial pain syndrome; fibromyalgia like pain
- Peripheral neuropathy (stable)
- Thoracic outlet syndrome
- General neuromuscular pain & dysfunction

SAFETY & ETHICS

Screening for red flags & modality contraindications. Voluntary participation; you may continue your usual care and withdraw anytime, if necessary. This is a private study in partnership with the VA for outreach/coordination; not an official VA clinical service.
